## PÁLANPUR.

**Area.**—The estimated area of the Agency is 6,398 square miles.

**Survey.**—Survey operations were commenced in 1892, but have not been completed owing to the severe famines of 1899—1902, and subsequent lean years. Upto the year 1910-11, 342 out of 511 villages in the Pálanpur State have been surveyed. In the Rádhanpur State the survey work was completed in 1898-99, but new rates of assessment have not been introduced. The survey operations in the Thara Jágghir were commenced in 1909-10, and upto the end of 1910-11, 10 villages have been surveyed.

**Trade and Manufacture.**—There are three cotton ginning factories at Sami, Lolada and Munjpur under the Rádhanpur State. Good leather work is turned out at Suigam, a village near the Ruun. The chief articles of export are rape-seed, rice, sesamum and cutlery.

**Important Public Works.**—The following important works have been constructed since 1875 in the Pálanpur Agency :—

1. Scott Canal at Rádhanpur.
2. Road from Roh to Ambaji within the Pálanpur State limits ( $7\frac{1}{2}$  miles).
3. Road from Rádhanpur town towards Pattan.
4. Goodfellow Hospital at Pálanpur.
5. Diamond Jubilee Female and Male Sultana Jehan Hospital at Rádhanpur.
6. Pálanpur High School.
7. Jail at Pálanpur.
8. Mausoleum of His Highness Dewan Jorawar Khanji Saheb, Pálanpur.
9. Huzur Offices at Rádhanpur.
10. Harris Clock Tower at Rádhanpur.
11. Mrs. Scott Girls' School at Pálanpur.
12. Scott Hospital at Pálanpur.
13. Merewether Hall at Sihori.
14. Traveller's Bungalow at Deodár.
15. Mohtajkhána at Pálanpur.
16. The Agency Jail.

The Pálanpur-Deera branch, joining the main line of the Rájputána-Málwa Railway at Pálanpur, 18 miles in length, has been working since 1893, and has added considerably to the prosperity of the Agency. The Pálanpur State share of the net yearly earnings of this branch exceeds Rs. 10,000. The Durlár originally invested Rs. 1,85,000 in the undertaking.

**Famine and subsequent lean years.**—The whole Agency suffered severely from the famines of 1900-02. Relief measures were commenced in September 1899 and were closed in October 1902. The highest daily average number of persons in receipt of relief was 92,348 in July 1900. It decreased to 73 in April 1901 and again rose to 14,000 in February 1902. Over 20 lakhs of rupees were spent on famine relief in the year 1899-1900. The following famine loans were borrowed by the State from Government:—

	Rs.
Pálanpur ... ..	8,50,000
Rádhapur ... ..	3,30,000
Other States in the Agency ...	6,00,865
Total ...	<u>17,80,865</u>

In the year 1903-04 a swarm of locusts visited the Agency and did considerable damage to the crops. The produce realized during the year was fair and there was no cattle disease.

	Rs.
Tagávi to agriculturists ... ..	8,856
Loans to managed estates ... ..	6,500
Loans to petty non-jurisdictional táluk-dárs ... ..	5,800
Total ...	<u>21,156</u>

In December 1906, the late crops of cotton, rape-seed and castor-oil suffered considerably from severe frost, but the outturn, on the whole, was fair. In the three subsequent years the crops were good but in the year 1909-10 the late crops again suffered from frost in the month of January. The total liabilities at the end of the year on account of Government loan were as under:—

**Plague.**—In the year 1895-96 and 1898-97 the Agency suffered from cholera and small-pox, which carried off over 2,500 and 400 souls respectively. In the latter year plague first appeared in Pálanpur town and in some villages of the State. It again broke out in 1903 in Pálanpur and spread over the Deesa Cantonment and Pálanpur State villages, and has re-appeared every year up to the year 1909-10. It was of a virulent type in 1908-09, in which year the number of deaths in the Agency was 536. Plague has caused the deaths of over 3,747 persons altogether in the Agency as given below.

**General.**—There is a Government stallion at Pálanpur and State stallions at Pálanpur and Rádhanpur. There are nominally five Municipalities at Pálanpur, Rádhanpur, Deesa, Tekra and Rájpur, the latter two being suburbs of Deesa Cantonment under the jurisdiction of the Pálanpur State. They are practically a department of the State to which sanitary work is entrusted. The cost is met by an octroi duty supplemented by contributions from the State revenues.

## MAHI KA'NTHA.

**Area.**—The estimated area of 9,300 square miles entered in Official Reports until the year 1890-91 was reduced to 3,528 square miles in 1891-92 to accord with the G. T. sheets, but even this figure is only approximately correct, and the probable area of the Agency is 3,124 square miles.

**Survey.**—There has been no survey settlement except in a portion of the Idar State, none of the other States and Talukas in the Agency having yet been surveyed in detail for revenue purposes.

**Trade and Manufacture.**—The chief industry in the Agency is the dyeing of cloth in Vasna and Pothapur, which yearly export dyed cloth of the value of Rs. 14,000 and 50,400 respectively. There are two cotton ginning factories—one at Himatnagar in Idar State and another at Jhotana in Katosan Taluka.

**Important Public Works.**—The important works constructed since 1875 in the Agency are given below :—

Since the year 1897 the Viramgám-Mehsāna, Ahmedabad-Parāntij and Kalol-Vijāpur branch railways have been constructed in the Agency, and the latter has greatly developed the Pethāpur, Mānsa and Warsoda Tālukas. The Ahmedabad-Parāntij Line, which was constructed in 1896-97 and opened for traffic in 1897, was extended to Khed-Brahma in the year 1909-10. The extension has developed the State of Idar, the Tāluka of Ilol and the Tālukas under the Sāber Kānthā Thāna Circle. To connect Sādra, the head-quarters station of the Agency, with the Ahmedabad-Parāntij Khed-Brahma railway, a partly metalled road from Sādra to Dabhoda and an unmetalled road from Sādra to Parāntij have been made. The Kalol-Vijāpur railway though not actually in the Agency limits has stations at Limbodra and Randhaja, Makakhad and Lodra which serve the Mali Kānthā towns of Mānsa, Pethāpur, Warsoda and Sādra. Limbodra is also about four miles from Sādra, the head-quarters of the Agency. The Mehśāna-Kherālu branch line was extended by His Highness the Maharaja of Baroda to Taranga Hill station in 1910. This line too, though not actually in the Agency limits, serves the Tāluka of Sudasna and the Tālukas comprised in the Gadhwāda Thāna Circle. The Ambaji-Taranga Light Railway from the Taranga Hill Station which will develop the Gadhwāda Thāna Circle, and the Danta State is under construction.

**Famine.**—The whole Agency suffered from famine in 1899-1900. Relief measures were commenced in December 1899 and were closed in November 1900. The highest daily average number on relief works was 80,000 in July 1900, and those receiving gratuitous relief numbered 6,000.<sup>11a</sup> The total amount spent during the year for famine relief amounted to Rs. 4,76,967. The next year again there was scarcity, and the whole Agency suffered from the famine of 1901-02. The daily average number of relief workers was over 13,000 in June 1902, which decreased to 1,200 in October. The Idar State borrowed famine

loans of Rs. 3,50,000 from Government; and the amounts borrowed by other States in the Agency was Rs. 3,77,780 in all. The whole Agency suffered from fodder famine in 1911-12. Tagávi was advanced to cultivators to sink new wells, to grow fodder as also to purchase the fodder imported by the Agency in large quantities, and thus the lives of many cattle were saved. The percentage of cattle which died was 7.6. There being no human distress, no relief works had to be opened. The Idar State contracted famine loans of Rs. 1,68,000 from Government; and the amount borrowed by other States in the Agency was Rs. 3,11,256 in all.

**Plague.**—The Agency remained free from plague up to 1901-02. Bávishi Thána in the Agency was first infected by plague in 1902-03, when 37 persons died. In all there occurred over 4,900 deaths up to the end of May 1910.
